**TISBURY PARISH COUNCIL****APPLICATION TO CATG FOR A PROPOSED EXTENSION OF THE  
TISBURY 20 mph AREA in the following roads: Vicarage Road, Duck Street,  
Cuffs Lane, Court Street, Park Road, The Avenue and Tisbury Row.**

**Fao Julie Watts**  
**CATG Principal Engineer**  
**Traffic Engineering**

Dear Julie,

Over the past year Tisbury Parish Council has received numerous and regular representations from 20 plus residents at our meetings for extensions of the 20mph limit throughout the village; the problems being an increase in number of vehicles, speeding and increased weights of vehicles.

In February 2019, Parish Councillors were sympathetic to the cause but were cautious about proceeding with further requests for 20mph limits if there was little evidence of these perceived problems.

Tisbury Parish Council at that time were waiting for funding from the Area Board for a Speed Indicator Device (SID) and a request for approval of a Community Speed Watch (CSW) site (following a traffic count on Hindon Lane after the introduction of the 20mph limit) and training of a small number of CSW volunteers since October 2018. The combination of the SID and CSW schemes were seen by other local communities as the best way forward to combat speeding vehicles.

Residents at the February 2019 meeting agreed that they would take part in a revitalised CSW initiative and a resident was appointed as Residents' Representative for a 20mph limit throughout the village; the first objective being an operational CSW site on Hindon Lane.

The Parish Councillors in turn agreed the purchase of a SID (subject to Area Board funding) and to submit traffic count requests to gain further information on the speed, type and number of vehicles on a number of roads in Tisbury.

The roads involved were Cuffs Lane, Court Street, Park Road, The Avenue and Church Street. Although Church Street already had a 20mph limit, the speed of vehicles was required for a CSW site.

In the meantime, many residents (over 20) expressed an interest in being trained for CSW duties and a petition of over 60 residents in 2018 was resurrected that demonstrated to the Parish Council that there was sufficient commitment of residents to encourage drivers to change their attitude and positive community benefits.

In March 2020, a letter drop to all residents in Tisbury asked whether there would be support for the proposed extension of the 20mph limit and although there were 6 objections, over 94% of respondents (104 in total) were in favour of the proposals

The information from the traffic counts undertaken in November 2019 and the resident survey in March 2020 has allowed Tisbury Parish Council to move forward with:

- a. This application to extend the 20mph speed limit to the above roads; the Vicarage Road traffic count has been submitted subsequently and the requests for Duck Street and Tisbury Row arose from the letter drop responses.
- b. Future requests for CSW sites from the Police – for use on a rota basis rather than increasing the overall number.

- c. Future sites for positioning the SID; currently new sites have been approved by Wiltshire Council on the High Street, The Avenue and Church Street; adding to the private property site on Hindon Lane and a proposed private property site on Cuffs Lane.

The Parish Councillors know a 20mph limit reduces traffic speed: on Hindon Lane, by 2017 it had fallen by 30% since previous measurement in 2012, and it has now fallen a further 10% since.

Also that an increased number and larger traffic is coming into Tisbury and means many people no longer feel safe using our roads. People living in the many older houses opening directly onto the road also feel threatened.

But more large vehicles are now using the Chicks Grove route because that is the only one without a low bridge or archway. Residents on that side of the village have now asked that the 20mph limit should cover their area too.

Tisbury Parish Council is therefore now asking that the 20mph speed limit extensions specified are now added to those existing limits; being aware that:

- d. these extensions are likely to be self-enforcing (evidenced from the traffic counts already undertaken),
- e. are on roads that are narrow and have residential on-street parking,
- f. and probably most crucially, little in the way of pavements or pedestrian refuges.

I would be grateful if you would accept this submission and look forward to the next CATG meeting where it will be discussed along with any others.

Many thanks.

Yours sincerely,

Sandra Harry – Parish Clerk and Responsible Financial Officer
