

****BRILLIANT NEWS FOR TISBURY ALLOTMENTS****

In response to increasing concern within the village that the allotments may be threatened by the proximity of the new Hindon Lane Development and concerns about future development, the Parish Council are pleased to announce that they have negotiated with Wiltshire Council to acquire the Allotments on behalf of the village, thus ensuring their survival into the future. This will not cost the village anything and will make NO difference to the costs to allotment holders.

All allotment matters will continue to be managed by the independent Allotments Society as they have for the last few years, and ALL revenues from allotments are used to maintain and improve the allotments.

This is another example of your Parish Council working to ensuring that even in these tough times, Tisbury continues to hold its own and keep the facilities which are so important to village life.
