

LITTER BIN REPLACEMENT OPTIONS (all prices exclude vat)

ELIPSA - total price £153.28; 70 litres capacity

Elipsa is a contemporary-styled litter bin with a narrow foot print to suit all locations where space may be limited – oval in shape.

Manufactured from Durapol® material, which is recyclable after its service life, the Elipsa is weather resistant and requires minimal maintenance. The anti-fly posting recess and textured finish is designed to reduce the likelihood of posters being adhered to the bin and prevent vandalism. The curved hood design prevents litter being left on top.

When purchased in the black model, this litter bin contains 15% recycled content.

<https://uk.glasdon.com/elipsa-litter-bin> - make sure you watch the video with a man trying to remove the bin cover and also bashing it with a baseball bat!

TOPSY ROYALE – total price = £217.56; 90 litres bin capacity

Topsy Royale requires minimum maintenance as it is manufactured from tough vandal and weather-resistant Durapol® material. The bin has been designed with chamfered apertures and a robust domed hood to help prevent littering. Topsy Royale has integrally moulded ridges to deter fly posting and graffiti.

Topsy Royale litter bin is supplied as standard with Gold or Silver decorative banding and the universally recognised 'Bin-It' symbol. The banding is set into specially designed recesses to ensure vandal resistance.

When purchased in the black model, this litter bin contains 15% recycled content.

TOPSY JUBILEE – total price = £243.52; 110 litres bin capacity

a Victoriana–style litter container, manufactured in Durapol® material with a stylish textured finish.

When purchased in the black model, this litter bin contains 15% recycled content.

FUTORA – total price = £397.50; 100 litres bin capacity

An optional extra - £107 for 2 flaps for keeping smell at a minimum and also discourages overfilling and bulkier discards; £397.50+£107.12 = £504.62.

Futura litter bin is stylish and modern with two large apertures.

A large knuckle-hinge door allows easy access to the liner, which can then be removed for emptying with minimal lifting.

When purchased in the black model, this litter bin contains 15% recycled content.

The main body is manufactured from tough vandal and weather-resistant Durapol® material.

Notes:

1. The **Futuro** is the easiest to empty as the liner is accessed via a door and does not entail any lifting of the body of the bin, the liner or the black bag of litter inside the liner.

...rather than...

Because the vast mass of litter usually collected in this particular bin in Stubbles is dog faeces, it is very heavy.

2. West Tisbury PC will buy the other replacement bin (or may choose not to) but if so, may buy a different colour to match the play area greenery; the two bins will be suitably distanced for this not to matter.
3. Metal bins are more expensive – a typical basic cost being around £550.
4. A number of metal bins originally found in a general on-line search were in very short supply and with estimated delivery times of up to 6-months.
5. Other colours are available for all the bins – dependent upon the style - along with gold/silver banding and/or motifs; typically black, navy blue, green, light grey and dark grey.
