Good afternoon,

I wonder if you can help?

I've recently joined the newly formed Prevention and Wellbeing Team (PWT) at Wiltshire Council. I will be covering SW Wiltshire, namely Mere, Tisbury and the surrounding villages. I will be looking to work alongside and build strong relationships with individuals to enable them to find their own solutions and engage within their local communities.

PWT Values:

- *We deal with the person, not the problem*
- *We help people to access information, advice, and support*
- *We take the time to build positive relationships*
- *We have strength focused conversations*
- *We don't assess people - We help people to build a positive vision for their future*
- *We empower people to take charge of their own lives*

We often work with people who require support with:

- *Anti-social Behaviour*
- *Homelessness*
- *Bereavement*
- *Social isolation*
- *Hoarding*
- *Mental health*

It would be really useful for me to link in with a member of the Parish Council to explain a bit more about the new role and learn more about the existing support and services that are available within the local community. Is there anyone in particular that would be best placed to help?

Kind regards,

Mark Aubrey
Prevention and Wellbeing Officer
