Locations of Speed Survey Points by Atkins for 20mph extensions.

30 July 2022 at 22:37

Dear Sandra

Thank you.

I'm very puzzled. Are PCs not supposed to be consulted as to where the TCs would be located? I seem to remember we were involved in some detail in deciding the locations previously.

Duck Street is included in these as per a response from a resident there, but no survey was done on Tisbury Row, ditto. Why was that, since it was named in the PC's letter minuted in the 9 Sep 20 CATG?

I'm very concerned that the lack of a TC in Tisbury Row should also be resolved at this stage as well of course as the other points.

But *when* will these questions be asked?

And, while we're at it, when is that Atkins report going to be provided - I understood the delay was to be escalated to their contractual obligations? Is that happening?
