Rt Hon Dr Andrew Murrison MP
House of Commons
London SW1A 0AA

18th October 2022

Dear Andrew

Since the appointment of the new Prime Minister, there have been a couple of announcements which have caused concern in our community and I have been asked to bring these concerns to your attention at an early stage.

1. It appears that the proposed new investment zones with relaxed planning regulation could extend through National Parks and AONBs. Clearly, our community would be very disturbed if this were the case with the Cranbourne Chase. We shall also be writing to Richard Clewer to share our concerns with him as Leader of Wiltshire Council.
2. The government has announced a review of ELMS. We share the well-publicised concerns such as those expressed by the CPRE and the National Trust on this matter.

As I say, this is just to give you an early stage view. No doubt we will be in contact as matters progress.

Kind regards

Yours sincerely

Simon Davison
Chair
